

Radio Systèmes Ingénierie (RSI) raises next round of funding

Strasbourg, France – November 26, 2004 – Radio Systèmes Ingénierie (RSI), a manufacturer of electronic solutions for the remote monitoring industry has announced it recently finalized a Euro 2 million financing round. This round is led by TechFund Capital Europe along with two other Paris-based venture firms, 123 Multinova and CDC Entreprises Innovation. They join earlier investors of RSI including Galileo Partners and Odyssee Venture. The new funds will be dedicated to sustaining growth and building international sales channels.

Says Sami Saad, CEO of RSI, « *we are experiencing a rapid increase in demand for our security solutions, and we expect our new generation of products to position us as a leading provider in Europe* ». In 2004, RSI started its first major shipment to large remote alarm monitoring companies.

RSI's largest clients are monitoring companies addressing the residential and SOHO markets. These provide a remote residential surveillance service and are able to utilize RSI's technology to install a wide array of electronics, including detectors, communication devices and alert equipment. Alarm companies customers are starting to demand the advanced technological solutions which RSI offers. These new products embed Internet-based communications, video, and wireless standards.

Based in Strasbourg (France), RSI was founded in 2000 by former industry executives with extensive experience in wireless and security systems solutions.

About 123MultiNova and 123MultiNova II

123 MultiNova is the first French multi-manager fund. It gives a unique access to five seasoned fund managers (TechFund Europe, ACE Management, S&BD, La Financière de l'Echiquier and Ofivalmo) instead of one for most of FCPI. Created in 2003, 123MultiNova II follows the same guidelines by syndicating the expertise of six managers (TechFund Europe, Seeft Management, S&BD, La Financière de l'Echiquier, Carmignac Gestion and CDC Ixis Asset Management).
